Petition to Director Don Hajec, Group 3600
Regarding Application # 10,083,771
Inventor – Huey Thomas Crochet
Title – Dynamic Snag Resistant Fishing Weight
Examiner – Kurt Rowen
Art Unit 3643

Sir,

The director has not yet responded on the record, to the applicant's timely petition, wherein the record shows that the examiner is clearly in error regarding said examiner's only objection in his advisory paper, that claim 22 brings up new issues needing further research and consideration.

Since there were no other objections raised, said claim 22 should have been found in condition for allowance.

Accordingly, the examiner's error is solely responsible for the inappropriate occurrence of the applicant's statutory abandonment.

In view of that fact, said applicant respectfully requests the director to enact a withdrawal of abandonment and find said claim 22 in condition for allowance.

37 CFR 1.181

Signed Huey Thomas Crochet Dated 8/26/05
